# Markets back to winning ways as banks, power stocks jump

PTI ■ MUMBAI

Benchmark indices resumed their ascent on Friday after a day's breather as investors flocked to banking and power stocks amid a rebound in global markets.

After rallying 359 points during the day, the 30-share BSE Sensex ended 214.33 points or 0.56 per cent higher at 38,434.72. Similarly, the NSE Nifty rose 59.40 points or 0.53 per cent to close at 11,371.60.

NTPC was the top performer in the Sensex pack, rallying 4.75 per cent, followed by Asian Paints, PowerGrid, HDFC Bank, Nestle India, Sun Pharma, SBI and Axis Bank.

On the other hand, ONGC, Bharti Airtel, Tata Steel and Reliance Industries were among the laggards, shedding up to 1.34 per cent.

During the week, the Sensex advanced 557.38 points or 1.47 per cent, while the Nifty climbed 193.20 points or 1.72 per cent.

"Indices held firm today

with help from select pivots even as market participants booked profits in late afternoon trade.

"Small-caps and mid-caps did well this week and we saw a smart bout of profit booking today in this space which is heartening as it speaks about the maturity of the retail investor at a time when we keep hearing about this investing segment being victimised more often than not," said S Ranganathan, Head of Research at LKP Securities.

## Global stock markets slide on gloomy economic data

AP ■ TOKYO

Global shares turned lower on Friday after new economic data showed a slowdown in Europe's economy and amid worries about a resurgence in coronavirus cases in many countries.

European stocks fell after a survey of businesses found that growth in economic activity eased in August after a jump in July, when businesses were reopening from coronavirus lockdowns.

The so-called PMI survey suggests that a steady rise in new coronavirus cases is undermining growth, and that the outlook for jobs remains dim.

# GST registration after physical verification of business place if Aadhaar not authenticated: CBIC

PTI ■ NEW DELHI

Businesses registering under GST can opt for Aadhaar authentication, in absence of which registration would be granted only after physical verification of the place of business.

In a notification, the Central Board of Indirect Taxes and Customs (CBIC) said when an applicant for GST registration opts for authentication of Aadhaar number, he shall, with effect from Friday (August 21), undertake the said authentication while submitting an application. "Where a person... fails to undergo authentication of Aadhaar number or does not opt for authentication of Aadhaar number, the registration shall be granted only after physical verification of the place of business in the presence of the said person," the notification added.

PwC India Partner National Leader (Indirect Tax) Pratik Jain said a taxpayer registering under GST can opt for Aadhaar authentication, in which case registration is deemed to be granted within 3 days without physical inspection of the premises.

He added that in other cases, the time period could be up to 21 days and authorities can undertake physical verification of place of business or detailed review of documents as necessary. "With linkage of Aadhaar with GST and PAN (permanent account number), there would be a centralised data base available with the government which will facilitate data analytics and help in checking tax evasion," Jain said.

AMRG & Associates Senior Partner Rajat Mohan said authentication of Aadhaar number would be a norm for GST registration in absence of which registration would be granted only after physical verification of the place of business. "Rigorous pre-registration verifications procedures would help arrest the rampant tax evasion by way of limiting the number of new fake entities," Mohan added.

# Sebi revises IFSC guidelines on financial reporting

PTI ■ NEW DELHI

Markets regulator Sebi on Friday revised its guidelines on reporting of statement of accounts for entities listing their debt securities in International Financial Services Centre (IFSC).

The decision, aimed at further streamlining operations at IFSC, has been taken after consultations with stakeholders, the Securities and Exchange Board of India (Sebi) said in a circular.

Under the new framework, entities listing their debt securities in IFSC will prepare their statement of accounts in accordance with International Financial Reporting Standards (IFRS) or US GAAP (Generally Accepted Accounting Principles) or Indian accounting standards as applicable to them in their place of incorporation, Sebi said.

In case an entity does not prepare its statement of accounts in accordance with

IFRS or US GAAP or Indian accounting standards, a quantitative summary of significant differences between national accounting standards and IFRS will be prepared and incorporated in the relevant disclosure documents to be filed with the exchange, Sebi said. It further said if the issue is targeted at institutional investors, then a quantitative summary of significant differences will not be required and a statement of differences between local accounting standards or IFRS or Indian accounting standards would suffice.

Apart from statement of differences, such issuers need to give a disclaimer that they "have not quantified the effect of applying IFRS/ US GAAP / IND AS to its financial information and investor may make

their own judgment in accessing the financial information".

Currently, an issuer of debt securities in IFSC needs to prepare its statement of accounts in accordance with Companies Act as applicable in IFSC.

In a separate circular, Sebi said an entity based in India or in a foreign jurisdiction may provide financial services in IFSC, subject to compliance with the applicable regulatory framework.

At present, a recognised entity desirous of operating in IFSC as an intermediary may form a company to provide such financial services relating to securities market, as permitted by the regulator.

To give effect to these, Sebi has amended IFSC guidelines. The country's only IFSC is in GIFT City near Ahmedabad in Gujarat.

# Rishi Sunak warns of 'difficult decisions' as UK debt hits 2 trillion pounds

PTI ■ LONDON

UK Chancellor Rishi Sunak on Friday warned of some "difficult decisions" ahead as official statistics revealed that Britain's public debt had risen above 2 trillion pounds for the first time, largely down to the extra burden on the economy as a result of the coronavirus lockdown.

Sunak, who has been leading the country's economic response to the crisis with a series of measures such as job retention and loan schemes, said the figures from the Office for National Statistics (ONS) are a "stark reminder" that public finances need to be reined in.

"Today's figures are a stark reminder that we must return our public finances to a sustainable footing over time, which will require taking difficult decisions," said the Indian-origin finance minister.

"It is also why we are taking action now to support the growth and jobs which pay for our public services, by helping businesses to reopen safely and, through our plan for jobs - protecting, supporting and creating jobs - to ensure that nobody is left without hope," he said. The government borrowing figure at the end of July stood at 227.6 billion pounds higher than the same month last year, according to the ONS data.

# India imposes anti-dumping duty on phosphoric acid from Korea

PTI ■ NEW DELHI

India on Friday imposed anti-dumping duty on phosphoric acid from Korea for five years with a view to guard domestic manufacturers from cheap imports.

The duty was imposed after the Commerce Ministry's investigation arm Directorate General of Trade Remedies (DGTR) concluded in its probe that continued dumping of "Phosphoric Acid of all grades and concentrations (excluding Agriculture or Fertilizer grade)" from Korea was impacting domestic industry.

"The anti-dumping duty (USD 137 per metric tonne) imposed under this notification shall be effective for a period of five years (unless revoked, superseded or amended earlier) from the date of publication

In international trade parlance, dumping happens when a country or a firm exports an item at a price lower than the price of that product in its domestic market

of this notification... And shall be paid in Indian currency," the Department of Revenue said in a notification.

In international trade parlance, dumping happens when a country or a firm exports an item at a price lower than the price of that product in its domestic market.

Dumping impacts price of that product in the importing country, hitting margins and profits of manufacturing firms.

According to global trade norms, a country is allowed to impose tariffs on such dumped products to provide a level-playing field to domestic manufacturers.

# Disconnect between stock market and real economy, correction in store: RBI Gov

New Delhi: Sounding a note of caution, RBI Governor Shaktikanta Das on Friday said there is a disconnect between the stock market and the real economy and a correction will be witnessed, though its timing is hard to predict.

The Governor said excess liquidity in the global system appears to be fuelling stock market exuberance. "There is so much liquidity in the system, in the global economy, that's why the stock market is very buoyant and it is definitely disconnected with the real economy. It will certainly witness correction in the future. But when the correction will take place, it is hard to predict," Das said in an interview to news channel CNBC Awaz.

The RBI is regularly monitoring the market behaviour and its impact on financial sector stability and will take necessary steps as and when needed, he added.

"We are regularly monitoring all market behaviour. RBI is vigilant about the impact of correction on the financial sector and how to deal with it," he said. Referring to the winding down of six debt schemes of Franklin Templeton Mutual Fund, he said the RBI took a proactive step by opening a Rs 50,000 crore liquidity window for the mutual fund industry.

Das also said the loan moratorium announced by RBI at the onset of the pandemic was a temporary solution for COVID-19-related stress. *PTI*

# Sebi imposes ₹2 lakh fine on Orissa Minerals Development Corp, two individuals

PTI ■ NEW DELHI

Markets regulator Sebi has imposed a penalty of ₹2 lakh on Orissa Minerals Development Co Ltd and two individuals for lapses in making timely disclosures about certain price sensitive information back in 2012.

The watchdog had conducted a probe into the alleged delayed disclosure of price sensitive information by OMDC, Satish Chandra and Sucharita Das. Chandra and Das were Managing Director and Compliance Officer, respectively, at that time, according to an order. It was found that there were delays in making disclosures in at least three instances, including about environmental clearance for Kolha Roida

Iron & Manganese Ore Mining Project.... Environment clearance in respect of Kolha Roida Iron & Manganese Ore Mining Project; Merger of Bisra Stone Lime Co. Ltd with the Company; Issue of bonus shares and Splitting of shares of the company were 'price sensitive information,' the order, dated August 20, said.

As per the order, it is on record that the company has failed to make the disclosure within such reasonable period of time on a prompt and immediate basis in three out of the four cases mentioned above, the only exception being the dissemination of the information of splitting of the shares of the company. "The said three, disclosures were made by the company to stock exchanges belatedly each after a period of more than 24 hours since the time of their receipt by OMDC.

# India to see gas share rise to 10 pc by 2025: GAIL director

PTI ■ NEW DELHI

India may see the share of natural gas in its energy basket rise to 10 per cent by 2025 as a result of massive investment push in the creation of infrastructure to take the environment-friendly fuel to consumers, GAIL Director (Marketing) E S Ranganathan said on Friday.

Currently, natural gas

makes up about 6.2 per cent of the entire energy consumption in the country. PM Narendra Modi has set a target of raising the share of natural gas in the energy basket to 15 per cent by 2030 to cut carbon emission in the economy. "With gas demand (growing at) CAGR (of) 8 per cent, gas is expected to account for around 10 per cent of India's primary energy supply by 2025," Ranganathan

said at a PHDDCI webinar. CAGR stands for compound annual growth rate.

India is making investments worth billions of dollars to expand pipeline network as well as build import capacities to meet growing gas demand in the country. Also, city gas distribution networks are being expanded to raise the share of gas as a transportation fuel as well as kitchen fuel.
