

Budget lays foundation for growth in next 25 years: Niti VC

New Delhi: Asserting that the Union Budget lays the foundation for the country's long-term growth in the next 25 years, Niti Aayog Vice-Chairman Rajiv Kumar on Wednesday said the government is taking all possible measures to ignite private investments, which will be the best bet to pull the economy out of the shadows of the coronavirus pandemic.

He also said the procedural bottlenecks related to the complicated process of disinvestment of CPSEs (central

public sector enterprises) have been solved and the process will be more streamlined in the years to come.

"The Budget lays the foundation for India which we want to see in 2047 when we celebrate 100 years of our independence.

"This India will be at the frontier of new technologies and at the same time make the benefits of the growth available to all the people, especially to those at the bottom of the pyramid," he told PTI in an interview.

Stressing that the Budget has focused on infrastructure development as well as on sunrise sectors and frontier technologies, Kumar said the finance minister talked about starting a virtuous cycle that will be led by private investment to which the government investment is going to be a facilitator.

"So, the government is taking all the measures possible to ignite private investment, which will be our best bet to pull the economy out of the shadows of the pandemic," he

said. And, in any case, Kumar said the Economic Survey has estimated India's growth at 8-8.5 per cent for the next financial year, while the International Monetary Fund (IMF) has projected a growth rate of nine per cent.

"And, that growth rate on a high base now is indicative that the economy is pulling out of the pandemic-induced slowdown," he said.

Regarding the government not achieving its disinvestment target year after year, Kumar said the reason seems to be the

complicated process of privatisation. Noting that Air India was privatised after many years, he said that "I think, now we have solved all those procedural bottlenecks. And, the process is now well defined."

Further, the Niti Aayog vice-chairman said the process will be more streamlined in the years to come. The government has set a disinvestment target of Rs 65,000 crore for the next financial year, which is lower than the current fiscal's estimated mobilisation of Rs 78,000 crore.

Asked why the middle class was not given any relief in the form of tax cuts, Kumar said India's per-capita income is about Rs 1.2 lakh and the country's income level at which people are taxed is Rs 5 lakh today. Everywhere else, the taxable income starts quite closely after the average per capita income. This is also the reason why the persistent demand to raise the minimum taxable income level is rather misplaced, he said.

"Because, unless we expand the base for direct tax-

ation, we will never be able to bring down the rate.

"Also, we will have to depend more and more on indirect taxation, which is more regressive than direct taxation," he added.

According to Kumar, it is quite well established that changing the tax rates every year is not a good policy because it doesn't make for policy certainty and predictability. "So, for all those reasons, the Budget has done well to leave the tax structures unchanged," he said.

Observing that those who pay taxes are not the poorest, he said that in this year's Budget, there is a special effort to increase employment in the informal sector by giving the hospitality sector access to the Rs 50,000-crore credit guarantee scheme, which will make loans available to them at a lower cost. On high inflation, Kumar said that this time, inflation is not a result of excess demand in the economy and asserted that the country is not facing the threat of stagflation.

PTI

BRIEFS

FIRM REPLIES ON DIRECTORS' EXIT

New Delhi: The exodus of independent directors at PTC India Financial Services Ltd over corporate governance issues that prompted several regulators to seek a response from the company on the allegations, the company has responded to SEBI by reiterating its commitment to the highest standards of corporate governance. It also clarified that in the board meeting the MD & CEO addressed all concerns and corporate governance standards were upheld through the aforementioned report.

RAID ON FAKE PRODUCTS' MANUFACTURERS

New Delhi: On the direction of Delhi High Court, Delhi Police along with other authorities conducted raids on manufacturers who were making fake products in the name of Minda brand. The seized products included huge quantities of lubricant oil, product packaging material, and a auto batch code machine. The Delhi Police has sealed the premises in the North West Delhi's Bhorgarh Industrial Area.

Draft LIC IPO prospectus to be filed by next week, issue in March: DIPAM Secy

New Delhi: The government is likely to file draft papers for the mega initial public offering of LIC with market regulator Sebi by next week, while a portion of the issue would be reserved for anchor investors, a top official said on Wednesday.

In an interview, Tuhin Kanta Pandey, Secretary to the Department of Investment and Public Asset Management (DIPAM), said approval of the insurance regulator is awaited,

post which the draft prospectus, detailing the size of the share sale, will be filed.

The issue, after approval of Sebi, is likely to hit the market in March, he said. LIC's listing is crucial for the government to meet the lowered revenue estimates of Rs 78,000 crore for the current fiscal. The government has so far raised about Rs 12,000 crore from privatisation of AI and stake sale in other PSUs.

PTI

CSC signs MoU with BSNL

PNS ■ NEW DELHI

The Common Services Centers (CSC) has signed MoU with Bharat Sanchar Nigam Ltd. (BSNL), one of the largest mobile telecommunication networks in India, to provide services for sale of BSNL SIM Cards, mobile recharge and payment of mobile/landline/Broadband bills to citizens at the last mile.

The partnership will benefit more than 11.6 crore BSNL mobile subscribers, apart from citizens desiring to take new BSNL mobile connections. CSC will facilitate the sale of BSNL mobile products and services, like SIM Card and C-Top up, Bill Payment, Consumer Fixed Access (CEA) products and services through its network of more than 4 lakh Village Level Entrepreneurs across the country.

Elaborating on this partnership, MD, CSC SPV, Dr. Dinesh Tyagi said, "Our partnership with BSNL is in sync with the Government's emphasis on boosting mobile and broadband connectivity in rural India for fostering economic growth."

"When we come to the medium and long term, we find that a direct income support that simulates consumption demand has a very limited multiplier effect, whereas capital investment has a much larger, very strong multiplier effect, which lasts more than one year.

"How it helps? It generates demand for the inputs which get into the investment -- cement, steel, capital goods, construction machinery and so on," Seth told PTI in an interview.

In view of the hardship caused by the COVID-19 pandemic, the government provided direct support to people through various schemes like Jan Dhan, PM KISAN and Pradhan Mantri Garib Kalyan Yojana, he said, adding "in year two the need moderated and year three we expect that the need may not be there."

By increasing public investment, the government has provided the signal that it is ready to pump funds into growth-oriented activities.

"It gives confidence to the people about the future and a lot of consumption behaviour gets influenced not by income of today but gets impacted

Higher public investment to stimulate demand, generate jobs: DEA Secy

New Delhi: The Budget proposals seek to stimulate the economy by stepping up public investments, which will create demand for industrial inputs like cement, steel and capital goods, and generate jobs, Economic Affairs Secretary Ajay Seth said.

Finance Minister Nirmala Sithaharan in her Budget 2022-23 hiked public investment by as much as 35.4 per cent to Rs 7.5 lakh crore or 2.9 per cent of the GDP.

Observing that direct support measures have only limited multiplier effect, Seth said steps which can have long to medium term impact are needed to boost the economy in a sustained manner.

"When we are looking at economic management, it is not a one year affair. One has to look at short, medium or long term. In the short term, what was needed has been provided."

"When we come to the medium and long term, we find that a direct income support that simulates consumption demand has a very limited

also by what are the expectations of future," he noted.

Secondly, Seth added, the initiatives will facilitate crowding in of private investments and generate jobs for factory workers, skilled, semi-skilled and unskilled persons.

This is how crowding in of private investment happens, he said, adding that in 2019 when corporate tax was brought down, the investment could not take place because of the pandemic but thereafter conditions are ripe for them to invest.

The government in September 2019 slashed corporate tax rate for companies that do not avail of any tax incentive to 22 per cent.

New manufacturing companies have to pay an even lower corporate tax rate of 15 per cent.

The Budget 2022-23, presented by Finance Minister on Tuesday, extended the concessional rate of 15 per cent for one more year till March 2024 for newly incorporated manufacturing companies.

PTI

Sensex surges over 400 pts in early trade; Nifty breaches 17,650-level

Investors' wealth jump over ₹9.57 lakh cr in 3 days amid Budget-led euphoria

Mumbai: Equity benchmark Sensex climbed over 400 points and the Nifty breached the 17,650-level in the opening session on Wednesday, a day after the Union Budget proposed higher spending on infrastructure to boost economic growth and job creation.

The 30-share Sensex was trading 416.56 points or 0.71 per cent higher at 59,279.13, and the broader Nifty rose 117.95 points or 0.67 per cent to 17,694.80. PowerGrid was the top gainer in the Sensex pack, rising over 2 per cent, followed by ITC, Axis Bank, Kotak Bank, Bajaj Finance, IndusInd Bank and Bajaj Finserv.

On the other hand, Tech Mahindra, Tata Steel, UltraTech Cement, L&T, Sun Pharma and Wipro were in the red.

Among the 30 Sensex constituents, 24 scrips were trading in the green.

In the previous session, the 30-share BSE index finished 848.40 points or 1.46 per cent higher at 58,862.57. On similar lines, the broader NSE Nifty surged 237 points or 1.37 per cent to end at 17,576.85.

Finance Minister on Tuesday unveiled a bigger Rs 39.45 lakh crore budget, with higher spending on highways to affordable housing with a view to fire up the key engines of the economy.

"India unveiled on Tuesday a bigger budget of 39.45 trillion rupees (USD 529.7 billion) for the coming fiscal year, stepping up investment on highways and affordable housing to put growth on a firmer footing as the economy recovers from the pandemic," Deepak Jasani, Head of Retail Research, HDFC Securities, said.

PTI

Domestic two-wheeler sales dip 21 pc in Jan; recovery likely in coming months

Mumbai: The domestic two-wheeler sales witnessed a 21 per cent year-on-year decline in January, even as the segment registered a 14 per cent sequential growth in domestic wholesale volumes, while the passenger vehicle wholesale volumes declined marginally by 3 per cent Y-o-Y, credit ratings agency ICRA said on Wednesday.

The two-wheeler sales numbers are based on the data released by six major original equipment manufacturers (OEMs), ICRA said in a statement.

In January 2022, domestic wholesale PV volumes at 2.95 Lakh units represented around 16 per cent growth on a sequential basis and only a marginal decline of 3 per cent on Y-o-Y basis, said Rohan Kanwar Gupta, Vice President and Sector Head - Corporate Ratings, ICRA Limited.

The lower production levels over the months have led to unusually high waiting periods

for many high-selling models, with waiting periods for select models being as high as 6-8 months, he said.

The low year-on-year two-wheeler sales volume in January, highlights the adverse impact of price hikes, fuel inflation, and Omicron-related concerns on consumer sentiments, Gupta stated.

Noting that the supply chain issues in production of premium motorcycles also persisted, he said, the reinstatement of localised restrictions, to contain the third wave of pandemic, constrained retail sales and led to an 11 per cent sequential (14 per cent year-on-year) fall in volumes, to 10.2 lakh units.

Nonetheless, the industry is cautiously optimistic about recovery in coming months, with easing supply chain constraints and spillover impact from positive announcements on infrastructure spends and agri-initiatives in the Union Budget, Gupta stated.

In contrast to the domestic sales environment, steady demand from African and Latin America (LATAM) regions continued to be the silver lining for the industry, with exports clocking steady volumes of over 3.5 lakh units in January 2022, registering a 3 per cent sequential growth, according to ICRA.

Gupta also noted that the domestic electric two-wheeler sales continued to have a dream-run in the April-January period of FY2022, posting a 5 times year-on-year growth at 1.49 lakh unit sales.

In January 2022, the high-speed e-two-wheelers saw an 11 per cent month-on-month growth with 27,563 unit sales (highest monthly sales this year), Gupta said.

The proposed formulation of a battery swapping policy and interoperability standards, announced in the budget 2022-23, could be game-changers for faster EV adoption in the medium-term, Gupta added. PTI

investment is permitted under the automatic route in the insurance sector. However, these rules do not apply to Life Insurance Corporation of India (LIC), which is administered through a separate LIC Act.

As per Sebi rules, both FPI and FDI are permitted under public offer. However, since the LIC Act has no provision for foreign investments, there is a need to align the proposed LIC IPO with Sebi norms regarding foreign investor participation.

The Cabinet had in July last year approved the initial public offering (IPO) of LIC and

DPiIT to soon seek Cabinet approval on FDI policy changes for LIC: Secy

New Delhi: The Department for Promotion of Industry and Internal Trade (DPIIT) will soon approach the Union Cabinet to seek its approval on changes in the foreign direct investment (FDI) policy to facilitate disinvestment of the country's largest insurer LIC, a top government official said on Wednesday.

DPIIT Secretary Anurag Jain said an inter-ministerial consultation on the matter is at its last stage.

"Hopefully, it should happen very soon... All the comments that will come (from different departments) will be supportive (of the proposal)," he told reporters.

He also expressed hope that the Cabinet will soon take up this proposal.

The DPIIT is making changes in the FDI policy to facilitate disinvestment of LIC, after taking views from the finance ministry.

According to the current FDI policy, 74 per cent foreign

the stake sale is being planned in the current March quarter.

The finance minister has directed that the disinvestment has to be completed during the current financial year, "so, obviously, we will try to expedite it (Cabinet note) as much as possible," he added.

On the Budget, the secretary said the Budget has given a clear way forward and now, it is up to the industry and entrepreneurs to take up the challenge and take India towards Vision 2047.

Talking about National Logistics Policy, the secretary said that by and large, the major issues of the policy have already been incorporated in the PM GatiShakti National Master Plan.

"So, whatever was attempted to achieve through the policy a major portion of that is already out," he said.

He added that the Budget has announced several measures to boost domestic manufacturing.
