US SCRIBE JAILED FOR 11 YEARS IN MYANMAR Bangkok: A court in military-ruled Myanmar on Friday sentenced US journalist Danny Fenster to 11 years in prison with hard labour, the maximum penalty under three charges, despite calls by the United States and rights groups for his release. It was the harshest punishment yet among the seven journalists known to have been convicted since the military ousted the elected Government in February.

CPC HAILS XI JINPING AS CHINA'S 'HELMSMAN'

Beijing: China's ruling Communist Party hailed President Xi Jinping as its "helmsman", a honorific title reserved for party founder Mao Zedong, saying that he has emerged an "anchor" for the party and a "backbone" for the nation, as he geared up for a record third-term and beyond. The Communist Party of China, which has monopolised political power since the People's Republic was founded in 1949, also attacked US President and asserted that demoacracy was not an "exclusive patent" of the US

Good news for spouses of H-1B visa holders

US allows automatic work authorisation permits to spouses of H-1B visa holders

In yet another immigration-friendly move that would benefit thousands of Indian-American women, the Biden administration has agreed to provide automatic work authorisation permits to the spouses of H-1B visa holders, most of whom are Indian IT professionals.

An H-4 visa is issued by the US Citizenship and Immigration Services (USCIS) to immediate family members (spouse and children under 21 years of age) of the H-1B visa holders. The visa is normally issued to those who have already started the process of seeking employment-based

lawful permanent resident status in the US.

The H-1B visa is a nonimmigrant visa that allows US companies to employ foreign workers in specialty occupations that require theoretical or technical expertise. The technology companies depend on it to hire tens of thousands of employees each year from countries like India and China.

A settlement was reached by the Department of Homeland Security in a classaction lawsuit, which was filed by the American Immigration Lawyers Association (AILA) on behalf of immigrant spouses

"This (H-4 visa holders) is a

group that always met the regulatory test for automatic extension of EADs (employment authorisation documents), but the agency previously prohibited them from that benefit and forced them to wait for reauthorisation. People were suffering. They were losing their highpaying jobs for absolutely no legitimate reason causing harm to them and US businesses," Jon Wasden from AILA said.

achieved the reversal of the USCIS policy that prohibited H-4 spouses from benefiting from the automatic extension of their employment authorisation during the pendency of stand-alone EAD applications.

The litigation successfully

Taliban: Bomb hits mosque in Af

15 injured

AP ■ KABUL

provincial Taliban A Taliban provincial spokesman says a bomb exploded in a mosque during Friday prayers, wounding at least 15 people in eastern Afghanistan, where Islamic

State group militants have been waging a campaign of violence. Qari Hanif, the govern-

ment spokesman for Nangarhar Province, said the bomb appeared to have been planted inside the mosque in the town of Traili, located in the mountainous Spin Ghar area outside the provincial capital Jalalabad.

Qatar agrees to represent US interests in Afghanistan

Washington: Secretary of State run Afghanistan, a move that Antony Blinken said on Friday that the Gulf nation of Qatar has agreed to represent American interests in Afghanistan following the closure of the US Embassy in

Kabul in late August. Blinken said Qatar will serve as the "protecting power" for the United States in Talibansuggests the Biden administration has little confidence that it will re-open the embassy in the near future.

Qatar will establish a US Interests section within its own embassy in Kabul to provide consular and other services to American citizens in Afghanistan, Blinken said. *AP*

Climate talks back off from call to end all coal use

AP GLASGOW

Negotiators at this year's UN climate talks in Glasgow appeared to be backing away from a call to end all use of coal and phase out fossil fuel subsidies completely, but gave poor countries hope for more financial support to cope with global warming.

The latest draft proposals from the meeting's chair released Friday call on countries to accelerate "the phaseout of unabated coal power and of inefficient subsidies for fossil

A previous proposal Wednesday had been stronger, calling on countries to "accelerate the phasing out of coal and subsidies for fossil fuel." The changes, if agreed, could give countries loopholes to continue burning coal and subsidise fossil fuels

While the chair's proposal is likely to undergo further negotiation at the talks, due to end Friday, the change in wording suggested a shift away from unconditional demands that some fossil fuel exporting nations have objected to.

The question of how to address the continued use of fossil fuels responsible for much of global warming has been one of the key sticking points at the two-week talks.

Scientists agree it is necessary to end their use as soon as possible to meet the 2015 Paris accord's ambitious goal of capping global warming at 1.5 degrees Celsius (2.7 Fahrenheit). But explicitly including such a call in the overarching declaration is politically sensitive, including for countries, such as Saudi Arabia, that fear oil and gas may be targeted next.

PHYSICAL POSSESSION NOTICE
